It is great to see you! You look worried.

Kim wants to live by herself.
I think it is a bad idea. I can not imagine her living without me.

Grandpa, the law says people should live in a place that meets their needs. People with disabilities have the right to choose where to live.

Many Virginians chose their home.* Most people liked their home! I want to pick where I live too.

Kim is right. Since 2015, lots of Virginians with disabilities live without a parent or guardian.

Most Virginians like me live alone or in small group homes.** Others live by themselves or with roommates.
Housing costs a lot. You get Supplemental Security Income. That is $790 a month.

Rent for a small apartment costs more than that. You also need money for water and other bills. You do not have enough money to live without me.

You are right. Housing costs are a problem. You can talk to state agencies. They help many people with rent and other costs.

I understand. I support you.

Let us talk to the Department for Behavioral Health and Developmental Services (DBHDS) and Virginia Housing.

You can also talk to Virginia Housing!
